Education

My a-levels are BBC for ICT,
Computer Science and NBQ.
My GCSEs are Maths B, English
Language D, Double Award
Science DD, Art C, History C, ICT
B.

Key skills

Problem Solving
Technical Skills
Digital Skills

Personal Statement

Hi my name is Varshan. I'm currently studying BSc (Hons) Computer Science student at Bangor University. My current passion are coding like java, C and python. My favorite hobbie is watching football. My favourite football team is Liverpool. My main goal is to achive my computer science degree in 2 years time.

Experience

I had 2 years of experience of working in Macdonalds. My part-time work at McDonald's has helped me develop my teamworking, communication and customer service skills. This has improved my self-confidence and personal effectiveness. During my time in sixth form, I have completed virtual work experience program via Springpod. This course added to my knowledge of the subjects studied and gave me a sense of achievement.

Work History

MacDonald's = 2 years duration
Family local shop = started since 2021

Extra Activities

I volunteer at the Book Club in the library, initially I created a form (Microsoft Form) to assess how many people would like to join, then worked with younger pupils to encourage their literacy and to help them develop a love of reading. By doing this, I developed my communication skills and utilised my organisational skills, which are vital for my future career in computer science.
